

Formation Sylius (3 jours)

Accéder à la formation : <https://jolicampus.com/formations/sylius>

Société JoliCode, 18 Avenue Parmentier 75011 Paris / hello@jolicampus.com / +33 1 43 57 39 11

Objectif

This training is a complete introduction to eCommerce development with Sylius, which combines theory and practical exercises. It allows trainees start gently with Sylius, to understand its key mechanisms and latest evolutions, and to follow the community's best practices.

At the end of these three days of training, participants will be able to build projects based on Sylius, from the application configuration to the development of specific modules.

Pré-requis

Development in PHP

Experience in Web development

Laptop computer to bring

This training is given only in English. The training materials will also be in English.

Note

Nous pouvons adapter la formation à vos besoins, en mettant l'accent sur un aspect plus particulier du développement. Avant chaque formation, nos formateurs contactent les participants afin de déterminer vos objectifs et savoir s'il faut mettre l'accent sur un sujet particulier. C'est le bon moment, pour vous, d'échanger avec le formateur pour lui permettre de mieux cerner vos objectifs et les aspects que vous aimeriez voir approfondis.
